Our merchants have such staple products as beans, potatoes, canned tomatoes, corn and other canned vegetables shipped into our county every year. Why can't Bollinger county be self sustaining along these lines? Let's plant more beans and potatoes and can our own vegetables this year so that we will not require so much railroad service. If every community would grow everything possible necessary for food and stop depending on products raised in other parts of the country it would do much to help relieve the congestion of the railroads.

W. W. (Wick) Patterson, who taught the Myers school district No. 70, last year, was left on Saturday and informed as that this district held a meeting March 15 for the purpose of raising funds with which to purchase War Savings Stamps in the name of the district. The patrons of that small district—four square miles—in the spirit of undying patriotism, raised the sum of \$50. Also Clarence Wallace, who taught the Patterson school district No. 57, of average size, tells us that this district, at a meeting on March 22, raised the handsome sum of \$63. Let every school district in the county do likewise. Then we will know what is being done in this work and the interest will be greater.

Last Thursday evening the pencil pushed on this show, the kindness of our young friend, Will F. Wells and assisted by the good running quill of the pen, was enabled to get over to Cape Girardeau and catch a train for St. Louis, where he will see his son, Gilbert, who is in the hospital and whose condition is improving. We are happy to say, also, to attend a meeting of Missouri newspaper men concerning the big drive on the third Liberty Loan which will be launched April 6, just one year after the entrance of our country into the great war. While there we had the pleasure of meeting many southeast Missouri editors, as well as some from other sections of the state and the earnest manner in which these gentlemen are going about their country's business left no doubt in our mind as to their willingness and determination to do their full part in putting Missouri "over the top," and thereby help "van the Kaiser." At another meeting on Friday, which was attended by Sam J. McMin, Judge F. M. Wells and Hon. J. M. Welker of our county, plans were perfected and the state organization completed for the great drive and the wheels are ready to be set in motion at the appointed time.
